**Guscio plc (“Guscio”, the “Company” or the “Group”)
Unaudited Interim Results**

Guscio plc, the technology company focused on programmes in physical literacy and sporting assessment, is pleased to announce its unaudited interim results for the six month period ended 31 March 2016.

CHAIRMAN'S STATEMENT

Guscio has transformed in the last few months, having changed its strategy to focus on technology opportunities in the physical literacy and sporting assessment arena. This is a current sector to be in with strong market fundamentals given the increased worldwide focus on the issue of childhood obesity levels and importance of physical activity. To this end, post period end, the Company acquired two revenue generating businesses, strengthened its board, raised £1.5 million (pre-costs) and re-listed its shares on AIM. Prior to this, on 10 March 2016, the Company's listing on AIM was cancelled as at that stage it had not implemented its Investing Policy.

The Company took an initial 30% interest in Sportsdata Limited over a three month period from December 2014 to February 2015. It then acquired the remaining 70% of Sportsdata in May 2016 at the same time as acquiring 100% interest in Dataplay Holdings Limited.

Sportsdata has developed a programme in tandem with the major charity, Youth Sport Trust (‘YST’), called Skills2Achieve (‘S2A’) (www.skills2achieve.org), which is a planning and assessment tool for physical education that tracks the progress of the whole child through a multi-ability approach to learning. It supports improving the health and wellbeing of pupils, helps to drive achievement and impacts whole school improvement. Importantly, Ofsted's new guidelines are focused on schools monitoring pupil physical activity to evidence the impact of the School Sport Premium, the ring fenced funding from the Government.

The roll-out of S2A to primary schools, commenced in February 2015; there are now 467 actively registered schools using the S2A programme on both the Full and the Lite versions. Focus for June and July is renewals, which are currently in excess of 90%. A new head of sales is being appointed for September 2016 to work directly with the YST resources and its routes to market in order to exploit sales opportunities. Furthermore, in June 2016 Sportsdata secured a further contract with the YST to develop a secondary school assessment product. It is also currently negotiating commercial terms with Sport New Zealand as the single licence holder for S2A for all New Zealand primary schools.

Dataplay is a white-label platform that can be adapted to track, assess and evidence progress and impact in sport, for both participants and organisations. It secured its first contract with the YST in

December 2015 for the development of the platform for the innovative Youth Sport Award, planned for launch in September 2016. It is also advanced talks with other high profile sporting associations to develop and deliver similar solutions; I hope to be able to update the market on progress in this respect soon.

The Company's results for the six months ended 31 March 2016, which are not reflective of the current business, show a loss before tax of £257,000 (2015: loss £84,000). During the period under review, the Company was an investing company having a 30% investment in Sportsdata Limited.

Post period end, there have been a number of board changes. I became Chairman at a General Meeting held on 23 May 2016, replacing Richard Thompson who took the role of part time commercial director. Gail Ganney, the founder of Sportsdata and Dataplay became Managing Director having been previously a non-executive director, and Rupert Horner took a place on the Board as Chief Financial Officer.

The Company is now focussed on cultivating its two subsidiaries: Sportsdata and Dataplay. Our strategy is to further develop the IP of both businesses to ensure they fulfil their trading potential.

I would like to thank shareholders for their continuing support and look forward to the future with confidence.

Tony Humphreys
Chairman

Notes to Editors

Guscio plc is an AIM quoted company. Its strategy is to develop technology platforms focused on physical literacy and active learning for young people and for the assessment of progress in sport. The Directors believe that the Company has a first-mover advantage through its two revenue generating subsidiaries, which have proprietary technology in this sector:

- **Sportsdata** - a web-based programme, skills2achieve, which can track and assess progress in physical literacy in schools; and
- **Dataplay** - a white-label platform for the tracking, assessment and evidencing of impact in sports.

Importantly, it has a key partner in the Youth Sport Trust, a leading independent charity devoted to changing young people's lives through sport.
